Hi Cathy,

Nothing more needs to be done at this time. Chemours has agreed to monitor on a quarterly basis, a select group of drinking water wells (public and private) in the vicinity of the Washington Works facility for HFPO-DA (GenX). We have been evaluating the raw (untreated) water to determine if there is a consistent upward trend in the GenX concentrations. Thus far, there has been no consistent trend. We will continue to evaluate the data as it is received.

Roger

Hi, guys.

Do I need to do something specific/official with this email?

Thanks!
Cathy

Good Afternoon Ms. Libertz,

Attached please find the 4Q18 Chemours Washington Works Private and Public Water Supply HFPO-DA Sampling Results. Note that this PDF does not contain the laboratory reports. The hard copy version does contain the laboratory reports on CD and will follow shortly. Thank you.

Kathy
